PURPOSE of Test Case: * the transition "DMS Upload" is added for status "In Revi...

PURPOSE of Test Case:

- the transition "DMS Upload" is added for status "In Review"
 - similar transition already existed for status "Approved"
- any of these transitions "DMS Upload" will generate PDF from the current LiveDoc and will upload the PDF into DMS system
 - the sub-container/folder will have the following name: "1.2 - In Review", where "1.2" - is Version, "In Review" is status of LiveDo

Step	Step Desc
1 (status "In Review")	open LiveD Change th (if it was e stored).
2 $Y + Y + Y + Y + Y + Y + Y + Y + Y + Y + Y + Y + Y + Y + Y + Y + Y + Y + Y + U$	Check that - transition - field "dm

Test Steps Step Step Description Expected Result 1 (status "In Review") open Li... Test Steps

Step	Step Description	Expected Result
❖1 (status "In Review")	<p>open LiveDoc of type "CENELEC" in status "Draft".</p> <p>Change the status to "In Review" - at this moment field "Doc ID" will get the integer value (if it was empty). This value is the Container ID in DMS</p>	<p>❖LiveDoc of type CENELEC in status "In Review"</p> <p>Field "Doc ID" has value - integer number.</p> <p><Image: screenshot-20210425-005606.png></p>

Step	Step Description	Expected Result
	(place where uploaded PDF will be stored).	
2	Check that: - transition "DMS Upload" is available/active. - field "dmsUploadDone" is empty	- Transition "DMS upload" is available/active - Field dmsUploadDone is empty (the value in this field makes the transition active/not-active) <Image: screenshot-20210425-005606.png>
3	Perform transition "DMS Upload". Save LiveDoc.	As result PDF is generated from LiveDoc and is uploaded to DMS. Link in DMS: https://dmstest.sbb.ch/OTCS/llisapi.dll?func=ll&objId=36815596&objAction=browse&viewType=1 <Image: screenshot-20210425-010626.png> NOTE: - Transition "DMS upload" is NOT available/NOT active - Field dmsUploadDone has a value and is not empty (the value in this field makes the transition not active) - Version is unchanged

Step	Step Description	Expected Result
❖1 (status "In Review")	open LiveDoc of type "CENELEC" in status "Draft". Change the status to "In Review" - at this moment field "Doc ID" will get the integer value (if it was empty). This value is the Container ID in DMS (place where uploaded PDF will be stored).	❖LiveDoc of type CENELEC in status "In Review" Field "Doc ID" has value - integer number. <Image: screenshot-20210425-005606.png>

2	Check that: - transition "DMS Upload" is available/active. - field "dmsUploadDone" is empty	<ul style="list-style-type: none">- Transition "DMS upload" is available/active- Field dmsUploadDone is empty (the value in this field makes the transition active/not-active) <Image: screenshot-20210425-005606.png>
3	Perform transition "DMS Upload". Save LiveDoc.	<p>As result PDF is generated from LiveDoc and is uploaded to DMS.</p> <p>Link in DMS: https://dmstest.sbb.ch/OTCS/llisapi.dll?func=ll&objId=36815596&objAction=browse&viewType=1</p> <p><Image: screenshot-20210425-010626.png></p> <p>NOTE:</p> <ul style="list-style-type: none">- Transition "DMS upload" is NOT available/NOT active- Field dmsUploadDone has a value and is not empty (the value in this field makes the transition not active)- Version is unchanged
